

Front Lift Groups

For Motor Graders

**Dymax Heavy Duty Scarifier Style
Lift Group**

Specifications

Weight (lbs)	1700
Cutting Width (in.)	48.00
Tooth Spacing (in.)	5.875
Number of Shanks	9
Ripping Depths (in.)	13.25 11.75 10.25

Dymax Scarifier Lift Groups are rugged, built to work year round.

Ideal for meeting bid specifications calling for front mounted scarifier, the **Dymax Scarifier Lift Group** is a true parallel style lift group for snow plowing AND a front mounted scarifier.

Dymax Scarifier Lift Groups feature slots for up to 9 replaceable shanks that are easily removed when snow season arrives.

Shanks feature 2 styles of tips: weld-on and replaceable.

Scarifier cross member fits in the pockets located on the back of the **Dymax V-type Snow Plow**.

Wide spacing and low placement of hookup points provides ideal matchup to machine power train, while incorporation of load holding valve insures reliable operation.

Dymax Scarifier Lift Groups are available for all major brands of motor graders.

Front Lift Groups

Dymax Heavy Duty Parallel Lift Group (standard coupler)

Specifications	
Weight (lbs)	1600
Width (in.) outside	33.00
Support Tube (in.)	4.00
Locking pin (in.)	1.50

Dymax Heavy Duty Parallel Lift Groups are designed to withstand the challenges imposed by heavy snow conditions and long winters.

Equipped with load holding valve to insure safe, dependable and effective performance.

Ideal for customers who have existing V-Type snow plows, the **Dymax Heavy Duty Parallel Lift Groups** are compatible with Balderson® lift groups and snow plows.

Dymax Heavy Duty Parallel Lift Groups are available to fit all major brands of motor graders.
