

Refuse Grapple Rakes

For Wheel Loaders, Toolcarriers and Track Loaders, Loader Backhoes

Dymax Refuse Grapple Rakes are built to provide years of productive use and are backed by the best service in the industry.

Dymax Refuse Grapple Rakes feature long floor tine construction comprised of high tensile steel or optional mild steels. Great for working in Landfills and other cleanup operations!

Dymax Refuse Grapple Rakes offer large capacity for working in brush piles, logs, scrap handling debris, landfill applications.

Dymax Standard Model Refuse Rakes feature independent acting grapples which are built using solid tine construction. Each grapple assembly is powered by heavy duty cylinders for long life. Optional full width grapples are available if specified.

Dymax Refuse Grapple Rakes are available as direct mount pin on models or equipped with hooks to work with the **Dymax coupler system** or other popular coupler models.

Contact **Dymax Sales 1-800-530-5407** if you have a specific requirement for your application or your local equipment dealer.

Optional dozer push plate for severe duty applications

Abrasion resistant solid steel tine construction provides long life and durability

Materials and specifications subject to change without notice.
