

BLOCK HANDLING ROCK BUCKETS FOR WHEEL LOADERS

OVERVIEW

Ideal for quarry operations, Dymax Block Handling Rock Buckets are designed for heavy duty use and built to last.

With a flat floor, spade nose and angled sides, these durable buckets are made to handle materials such as marble, granite or limestone blocks in quarries.

Available in a variety of sizes, including popular capacities such as 7 to 10 cubic yards.

AR400 carbide coating on the wear liners, bottom wear plates, and side cutters provides extra protection for harsh environments.

FEATURES

- Heavy duty AR400 carbide-coated wear liners and bottom wear plates.
- Heavy duty AR400 carbide-coated side cutters.
- Weld on half arrow cutting edges.
- Replaceable side bar protectors.
- Flat floor for increased penetration under stubborn blocks.
- Available with top rack for improved visibility.
- Available in a variety of sizes.
