

LIGHT MATERIAL BUCKETS**OVERVIEW**

Dymax Light Material Buckets are specifically designed to match the capabilities of the machine, thus providing an optimum bucket capacity, rugged dependability and overall stability.

Designed around each application, Dymax Light Material Buckets are ideally suited for handling materials such as corn, silage, hay, cottonseed and other light weight commodities.

Z-Bar Clearance Pocket (subject to machine arrangement)

Bolt on cutting edges
Reversible and replaceable

FEATURES

- Dymax Light Material Buckets work best with materials weighing no more than 2,100 lbs per cubic yard.
- Available in pin-on or equipped with hooks to fit the Dymax coupler system or other popular coupler models.
- Buckets feature flat floor construction and are equipped with bottom wear plates. All side cutters and bottom wear plates are comprised of high tensile steel.
- Dymax Light Material Buckets can be equipped with OEM bolt-on cutting edges and teeth.
- Larger capacity models may feature recessed pockets for proper z-bar clearance.
- Optional spill guard available.
- Available in 3-12 cyd capacities.
