

FEATURES

- Standard models feature shaft mounted non swinging tines.
- All fork tines are forged steel and manually adjustable left and right.
- See-through carriage assembly provides operators with good visibility for pickup and placing loaded pallets and construction materials and pipe.
- Available as direct pin-on models, or can be setup with coupler hooks to work with the Dymax coupler system or other popular coupler models.
- Optional swinging tines are available upon request.

OVERVIEW

Dymax Pallet Forks for wheel loaders, toolcarriers and track loaders are the ideal tool for handling a multitude of materials.

Dymax Pallet Forks provide a convenient alternative to a dedicated forklift.

Dymax standard model pallet forks (shown here) feature a see-through carriage assembly, ensuring good visibility for pick up and placing loaded pallets and other materials such as pipe. All standard models feature NON SWING tines that are manual adjusting left to right.

Optional: Swinging Tine Model

See through carriage provides excellent operator visibility. Optional carriage extensions are available upon request.
