

WOODCHIP DOZER U-BLADE

OVERVIEW

Dymax Woodchip Dozer U-Blades move massive amounts of woodchips. Ideal for pushing woodchips at pulp and paper mills, they also work well for wood fuel power stations.

Featuring large wings and high capacities, woodchip blades maximize each dozing pass and provide high efficiency rates. Available with optional operator visibility screen, or with solid moldboard group.

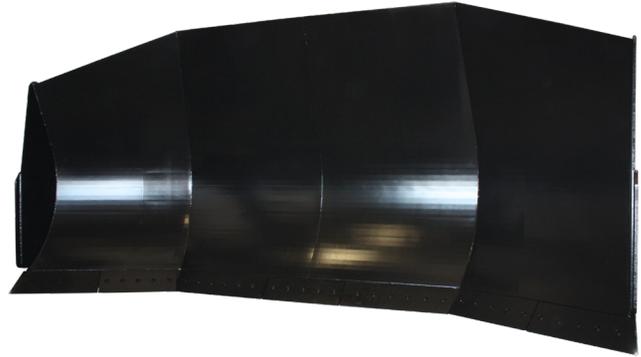

Dymax Woodchip Dozer U-Blades are available for Caterpillar, Komatsu, John Deere and Liebherr Crawler Dozer and Track Type Tractors, as well as certain model wheel dozers.

Building quality dozer blades is in our DNA – the Balderson family has been building dozer blades for more than 70 years.

FEATURES AND SPECIFICATIONS

- 30° wing angle.
- Includes replaceable OEM brand cutting edges.
- Fits factory outside mount push arms.
- Available with or without screen windows.
- Custom configurations available.
