

## NARROW WIDTH NURSERY LOADING BUCKETS

**Dymax Narrow Width Buckets** are ideal for handling bulk materials at nurseries. Narrow width buckets are made to fit between the sides of the bed of pickup trucks, thus eliminating spillage over the sides.

These buckets are available in capacities of .50 and 1.00 cubic yards, allowing the user to know exactly how much dirt or mulch is being moved. Eliminate the need to meter bulk materials from larger buckets!

- **Ideal for handling bulk materials at nurseries.**
- **Fits between the sides of a pickup truck bed.**
- **Eliminates spillage and provides exact capacity measurements.**
- **Custom buckets available upon request.**

| Model #  | Width (IN) | Hookup       | Weight lb | Weight kg |
|--|------------|--------------|-----------|-----------|
