

PUT THE SQUEEZE ON YOUR TRASH

1. High strength arms easily grab and stack 4ft x 4ft trash and recycle bales.
2. No grease requirement thanks to Nylon slide bearings which significantly reduce friction and wear.

OVERVIEW

TRASH AND RECYCLED BALE SQUEEZE

Easily handle recycled trash bales with your telehandler or wheel loader. Load metal, plastics, cardboard and other baled materials to and from trucks faster and more efficiently. Simply squeeze, lift and place your bales.

- Hi-strength box weld construction.
- Collapses to 22 inches inside face and extends to 92 inches for accommodating a wide range of bale sizes.
- Nylon slide bearings for long life and durability.
- Equipped with quick coupler hooks to fit most wheel loaders and telehandlers.
- Reduce risk of trailer damage caused from loading bales with fork tines or grapple buckets.
