

OVERVIEW

The **Dymax Bale Grapple Bucket** is a heavy-duty attachment that is specially designed for handling bales of trash at balefill locations, refuse transfer stations and landfills. Operators can efficiently stack, carry and unload up to two bales at a time, making it ideal for loading trucks or placing bales directly into the landfill.

In addition to its specialized bale-handling capabilities, the Bale Grapple Bucket functions as a conventional grapple for handling loose trash and various materials. It's the go-to solution for waste management professionals who need a strong, dependable, multi-functional tool.

KEY FEATURES

- Independent grapple design with bolt-on bale hooks for handling and stacking trash bales efficiently.
- Replaceable bolt-on cutting edge and rear wear pads for extended durability.
- Open side plate design with heavy-duty 1.50 inch T1 corners for reinforced strength.
- Bottom high-tensile steel wear plates and center push screen for improved performance in waste handling applications.
- Hydraulic cushion valve package with relief for smooth and controlled operation.
- Available in 2.00 yd³, 2.50 yd³, and 3.00 yd³ capacities, with widths ranging from 94 to 105 inches.

Model Code	Description	Weight
