

### CORN BUCKETS - FOR WHEEL LOADERS

## OVERVIEW

**Dymax Extra Wide Corn and Grain Buckets** are tailored for customers who need efficient, even loading of semi-trailers with lighter materials. Engineered as a light material bucket, this model offers a wider profile, specifically designed to distribute corn and grain more evenly, reducing the need for additional passes. It provides a valuable alternative to traditional bucket models, especially for operators **prioritizing load balance and efficiency in bulk material handling.**

## KEY FEATURES

- Ideal for handling corn and grain up to 1,200 lbs per cubic yard.
- Extra-wide design with high capacities and increased dump height for loading semi trailers.
- Flat floor design. Some models with higher capacities feature floor ribs for durability.
- Includes replaceable bolt-on cutting edges.

## OPTIONS

- Pin-on lugging
- Quick coupler hooks
- Rear bolt-on wear pads
- Special design solutions
