

OVERVIEW

Dymax Feedyard Light Material Buckets are built for high-hour cattle feeding, with reinforced construction to withstand the wear of repetitive shaking during dumps. The lightweight design offers efficient feed handling, enhanced durability and reliable performance under tough, repetitive conditions.

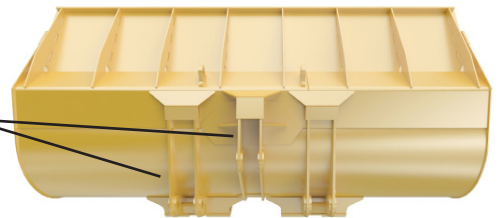

KEY FEATURES

- Wedge floor design.
- High strength T1 steel radial, convex style side cutters and wear plates.
- Strengthened hinge plate and coupler hook connections.
- Available for WL70-WL90 wheel loaders ranging from 7.0yd-10.00yd.
- Includes replaceable bolt-on cutting edges.
- Rear bolt-on wear plates.

OPTIONS

- Pin-on lugging
- Quick coupler hooks
- Special design solutions

Strengthened hinge plate and coupler hook connections.
