

OVERVIEW

Dymax Rock Buckets are designed for heavy-duty mining and quarry applications, including gold, copper, lead, limestone, iron, basalt and other abrasive materials. Available in both straight edge and spade nose models, these rugged buckets are matched to the loader's performance and constructed from high tensile steel for extended durability. Choose from a wide range of teeth, bolt-on cutting edges, lip shrouds, edge systems, sidebar shrouds and liner packages.

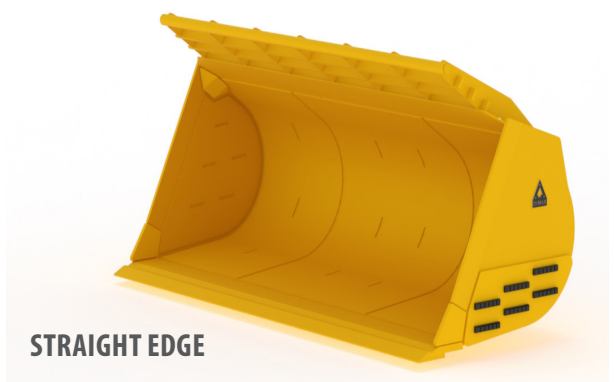

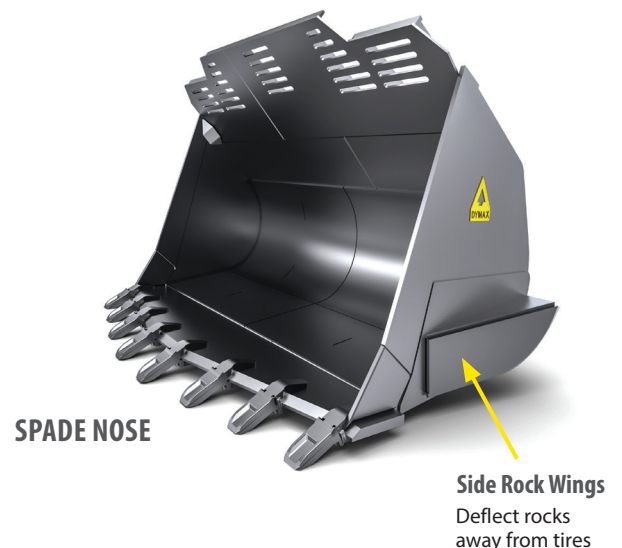

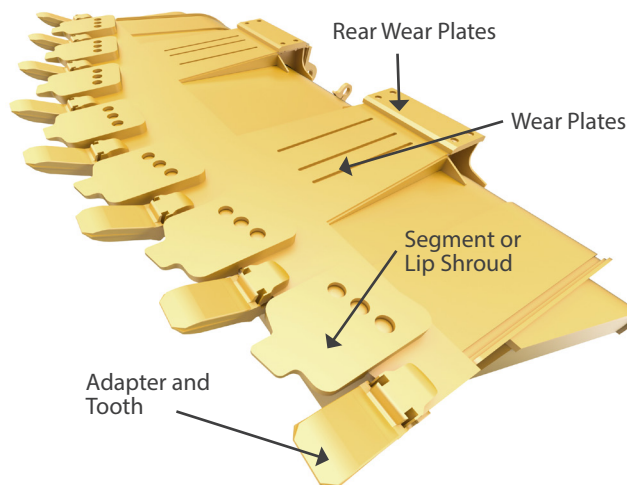

KEY FEATURES

- Available in spade nose or with straight cutting edges
- Constructed using high tensile T1 and AR400 steels
- Replaceable side bar protectors
- Wedge floor with rear wear pads
- External wear pads and tire rock guards
- Auxiliary spill plate

OPTIONS

- Specialized edge systems such as Esco Loadmaster
- Cat style teeth and segment edge packages
- Moldboard liner solutions to improve wear service life
- Custom design solutions
