

ONE-WAY MOTOR GRADER SNOW PLOWS

OVERVIEW

Built for Deep Snow. Built on Generations of Experience.

Dymax One-Way Snow Plows are heavy-duty motor grader snow plow blades designed for highway, county, municipal, and rural road snow removal. Built on generations of Balderson family snow plow experience, these plows are engineered for the demanding winter conditions found throughout Nebraska, Kansas, Colorado, Wyoming, North Dakota, South Dakota, and other heavy-snow regions.

Designed for motor graders, the Dymax One-Way Snow Plows are built to plow through deep snow and wind-packed drifts when roads disappear.

KEY BENEFITS

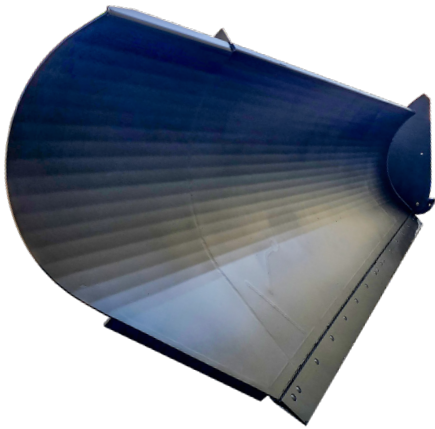

- **BUILT FOR DEEP DRIFTS:** Heavy-duty design powers through deep, dense, and wind-packed snow.
- **CONICAL MOLDBOARD:** Efficiently rolls and throws snow away from the roadway.
- **FRONT LIFT GROUP MOUNT:** Quickly attaches to your motor grader's front lift group.
- **REPLACEABLE WEAR COMPONENTS:** Bolt-on cutting edges, nose stinger, and replaceable wear shoes provide long service life.

APPLICATIONS

- Built for highways, rural roads, deep snow, and heavy drifting.

MODEL: DX-BL-SW1W-11ft6x61-MG-10

Group Number:	8672D1
Cutting Edge Width:	136.4 inches
Max Overall Width:	152 inches
Moldboard Height:	41.5 inches at the nose / 61 inches at wing
Cutting Edges:	Bolt-on
Shoes:	Heavy-duty adjustable shoes
Machine Compatibility:	Motor graders
Coupler Configuration:	Horizontal pin lock 4x22.5
Weight:	2,030 lb

Conical moldboard shape

Coupler hooks

Adjustable
skid shoes
